

The 50 MHz DX Bulletin

Volume 9, Issue 6

June 1998

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schools K3HS. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K6FV. Subscription rates are \$20 U.S. third class mail, \$25 U.S./Canada/Mexico airmail, \$25 by surface and \$30 by airmail elsewhere for 12 issues. Circulation matters and DX reports should be sent to Victor R. Frank, K6FV, 12450 Skyline Blvd., Woodside, CA 94062-4541 USA or to P O Box 762, Menlo Park, CA 94026 USA. My Internet address is frank@horizon.sri.com. The bulletin may be freely quoted, provided that credit is given.

SPECIAL EDITION...Meteor Outburst Alert

1. Editor's Notes

Jim Bedient
AMS Electronic Information Coordinator
wh6ef@pixi.com

I first became aware that a meteor outburst event was occurring when I received a message from Masahiro Koseki of the Nippon Meteor Society (via the IMO News mailing list) relating reports of high radio scatter activity and visual reports of high activity potentially linked with comet 7P/Pons-Winnecke. Dr Peter Jenniskens has now issued the outburst alert which follows. In order to help assure the widest possible dissemination, I have issued this special edition of the EC.

2. IAU C22 Outburst Alert

OUTBURST ALERT - JUNE 27/28

A meteor outburst was first detected by Japanese observers on 9h UT June 27th, from an increase of meteor rates by radio-forward meteor scatter signals (K. Suzuki, M. Ueda: 3-5 times above normal rates), with confirmation from visual observers. Raw rates of up to 50 meteors/hr were observed in the early evening (indirect reports via M. Takanashi and M. Koseki - NMS).

Italian observers Roberto Haver, Enrico Stomeo and Roberto Gorelli (UAI-Sezione Meteore) observed the same outburst between 21:20 June 27 and 01:30 UT June 28, with Zenith Hourly Rates above 100. The shower was also reported from Portugal, where astronomer Derek Penn counted 27 outburst meteors in 15 minutes. The sighting is confirmed from California, where observers noticed the meteors on June 28 around 5h UT. . . .

The radiant has been placed near RA=224°, DEC=+50° by the Italian observers and others agree with this general location. The shower is visible throughout the night, and highest in the early evening hours. The Moon will be hardly interfering, except perhaps in the first hour(s) of the night.

Radiant and time of year suggest that this is another manifestation of the June Bootids, which were detected by W.F. Denning in 1916. However, that event has been associated with comet 7P/Pons-Winnecke and the comet now has a descending node at 1.26 AU from the Sun, while the minimum distance between Earth and comet orbit during passage of the orbital plane is on June 25.15 (UT) at 0.244 AU. An unlikely large distance for meteor outburst activity, as was pointed out by Peter Bus (DMS).

An outstanding Es season

Two meter double-hop Es contacts were made on May 29. W4UE in EM90GC reports working KF7UV in DM08 at 0113Z. He peaked 20 dB over S9 and disappeared within two minutes. N6YO in CM88 reported hearing W4UE during the contact.

Six opened from Japan to Southern California at least twice during this reporting period. On May 29 at 0712Z, N6XQ worked JH7LEE and on May 31 at 0649Z N6CA was heard by JE2DWZ and at 0705Z worked by JA1VOK.

There were many six meter openings from Europe to the East Coast USA, but on June 23 at 1440Z, W7RV in Scottsdale, Arizona, worked CT4KQ and heard EH7KW.

Might some of this have due to increased meteor activity, which reached shower state on June 27?

Phil Krichbaum N0KE: "I was out for field day both nights and the sky in western Colorado was very clear on the night of June 27 with no moon to speak of. I was camped at about 9,000ft. I retired around 0500 UTC and started noticing a unusual number of meteors. I had left the 6m Yagi to the NW and could hear the W7HAH and K6FV beacons over 50% of the time even after daylight which was around 1100 UTC. My observation was a small portion of the sky including the north star and the big dipper down to the horizon on the north. Most of the meteors seemed to arrive from the south. All were of relatively low intensity and some burned up rather quickly. I never did see any brighter ones. The visible trail on some of the shorter ones might have been only a few degrees, something I don't recall seeing before. I could only see a small portion of the sky at any time and guess I may have observed 5 or 6 a minute so for a trained observer looking straight up the count would have been much higher.

The following night June 28, was not quite as clear with some haze and I looked for a long time in the same direction without seeing one meteor."

Wes N7WS DM42jh: "After going out to dinner last Friday night, (June 27 GMT) my wife suggested that since it was such a pleasant evening here in the desert near Tucson we should stay outside and stargaze for a while. So we put an air mattress in the back of the pickup truck and layed back. Behold, we counted 28 visual meteors in about 30-40 minutes at approximately 0600Z. I don't do RA and all that stuff but I can say that the radiant was slightly west of my longitude and as a guesstimate about 70 degrees above the southern horizon."

May-June 98 DX Reports

The following reports of 50 MHz and higher DX propagation are courtesy of SM7AED's *Six-metre Info*. JA1VOK's column *V,UHF DX Topics* in *MOBIL HAM*, GJ4ICD's Internet 6m News (marked with #), G4UPS, YO7VS, EH8BPX, VE7SKA, K6QXY, PY5CC, HP3XUG, XE2HWB, XE1AVM, KC6IPF, W6GYD, W0MTK, and postings on the Internet. Apologies to any sources I may have inadvertently neglected.

The first entry is *mmddhhii*, where *mm* is the month, *dd* is the day of the month, *hh* is the hour UTC, and *ii* is the minutes after the hour. The year is understood to be 1998. A + to the right of the time indicates the observation was one of several in a time period and is probably later than the time reported. A ~ indicates approximate time. The grid square of the observing station may occur after a > symbol; however a time after > indicates the opening was still in progress at this time. A t indicates tentative identification of a TV station. Symbols just before the call of the reporting station include: V=Video Carrier, I=Inband video sidebands, F=FM audio, B=beacon, C=CW, S=SSB, T=Television, W=worked, both C & S or mode not mentioned, H=heard only.

RUSSIAN FEDERATION, Europe:

EI7GL posted: "I was talking to Igor, RW2FWA, on 10m last Sunday and I asked him about the present situation with 6m operation in UA2F. He said that the relevant authorities in Moscow presently forbid all 6m from there and he doesn't see it changing soon. Apparently, there is an awful lot of red tape involved in just applying for permission. He said that they did receive permission for a limited operation about 7-8 years ago and about 1000 stations were worked."

 06261401 OM3OM KN08>J022 50.104 PA3BLS

SLOVENIA: The 4m band was opened on June 13 to all amateur classes on a secondary basis. Their band plan is:

70.000 - 70.030 Beacons
 70.030 - 70.150 Beacons, CW, SSB
 70.150 - 70.250 CW, SSB
 70.250 - 70.300 All modes
 70.300 - 70.450 Narrow band modes

Power limits: 100W pep output 1st class operators. 50W pep output 2nd and 3rd class operators. Mode limit: 3rd class operators are not allowed to use CW. Hopefully a 4m Beacon will be installed soon.

Further new bands from June 13:
 135kHz, 40MHz, 3.4GHz ...

The 40MHz band is for Beacons only. Frequency limits: 40.66 - 40.7 MHz. Power limit: 10 dBW ERP. Mode: Narrow band FSK CW.

The 6m band has new power limits are 100W pep for 1st class and 50W pep for others (6m permit is no more limited to 1st op.class).

S57A: "On June 18, I had my first opening to the UK. I'd contacted just a few stations, although the beacons were very strong even late in the evening. The same propagations appeared next day. Does it mean my radio station is not powerful enough (hi) or there is a lack of activity?!"

I am using 70/28 transverter, about 5W and 4 el modified tv ch4 antenna. We have CATV there are plenty of useless tv antennas on roofs. So we needn't spend money on antenna system for 70 MHz."

BAHAMAS: N5JEH: "I would like to

thank one and all that worked me in FL14 and FL15 on 6 meters. I was operating from Tarpum Bay on Eleuthera Island in the Bahamas. The equipment was an Icom 706 Mk2 and a 35 year old HiPar 3 element Hill top antenna at 20 feet. The 8 day operation netted 638 QSOs, 44 states and 150 grids. On May 31 I moved up the road 3.5 miles and operated from the junction of FL14/15. The 2 gps units I had confirmed the junction point.

Even worked a lot of stations on 52.525 FM and worked some stations one night on some 6 meter repeaters. Did work Fred W5FF. Even was asked to move off the calling frequency by one east coast station. I made calls on 50.125 and moved up to 50.170. On May 26 at 2300z had very strong 48.740 video. Lasted 2+ hours. On May 28 heard N7ML working W4s at 2240z. Did manage to get his attention after many many calls. On may 30 heard VP2V/K9VV many times calling cq. Did not work him or hear anyone working him. Heard the VE4VHF beacon several mornings early. 1400z. Did work one VE4 and heard VE7AGG calling CQ at 0055z but could not get his attention. All and all it was fun. Wish i had brought a 2 meter beam. Next trip. I will order QSL cards next week and hope i will be able to get the cards out before July. Again thanks to all that took to time to call me. 73 Ed N5JEH/C6A."

N8ZJN/C6AKL: "6M was not to kind to us this time down, most opening were 5-10 mins with a lot of QSB. With the exception of about 1hr 15mins on Sunday during the SMIRK Contest, with about 50 Q's and almost half the contacts for the entire week. I had 130 Q's

on 6M & Zero on 2M, I called CQ every morning from 1100z-1300z and evening 2300z-0100z looking up the east coast, midwest and south (on 2M). Nothing like the weekend before during the June Contest. Very few contacts on HF, still not into 30Mhz and below yet."

BRITISH VIRGIN IS.: Disappointing 6m conditions were noted from Virgin Gorda (FK78) in the B.V.I. Station was a 3el yagi & IC-706 several hundred feet above Leverick Bay.

On May 30th around 16Z, about 15 stations were worked (as VP2V/K9VV) in Florida and the mid-west USA. (W0, W5 & W9) Strongest was W3BTX who peaked at 10 dB over S-9. Add to this the fact the expedition was hampered by line noise varying from S-7 to S-9, contacts were challenging.

There is a chance VP2V may be activated on HF, and possibly 6m, again before the end of the year. The beauty of the islands and warmth of the people balanced the less than ideal conditions.

I made it a point to call CQ often on 50.125 and 50.110 during prime 6m times. Would be interested in any reports from folks who copied me but couldn't make it through. Fred, K9VV.

VP5KE: QSL via N4KE

CO0FRC: CO2OJ, At CO0FRC, POB 6060, Habana, Cuba, 10600. If a direct replay is expected, please include a SAE and return postage.

CO2KK: QSL manager: W5WP Dave in Texas. We have a nice e-mail link to check the logs... We are both busy persons, and have radio as a nice hobby... but we manage to find time, both of us, to reply to the QSL requests. W5WP has done the fantastic task of going through TWO shoe boxes FULL of QSL cards that remained unanswered due to lack of communications link to my previous manager.

As of today June 2, we have only a few cards to check from those old days. The usual turnaround time for a CO2KK QSL requested to W5WP with SASE and full details of QSO is quite good by present day world standards !!! NOW... please, if not needed for DXCC or VUCC, don't make me look to the very old logs of 1987, 88 etc... They are quite dusty... and it takes a long time to search for a QSO on them...SO.. try to work CO2KK during 1998 and onwards!

Direct QSL path also available to Arnie Coro CO2KK, Host of Dxers Unlimited, Radio Havana Cuba, PO Box 6240, Havana, CUBA 10600.

V73SIX: (RJ38) is on 50.006 with 10W to a PAR LOOP.

DX Operations

S0 (Western Sahara): Ross VK1UN/XU0UN/ZS1UN has indicated that he will arrive in S0 Western Sahara

in early July for a three month tour of duty. He is taking an IC726 and 2 el yagi. I have briefed him on the extensive availability of stations in and around his region and the potential for E layer during July and August. Operating hours and callsign will be notified when available.....QSL VK3OT

KG4 (Guantánamo, CUBA): Rusty, WV3N/KG4AU, Bill, W4WX/KG4GC, Vic, N4TO/KG4TO, and Doug, W4OX/KG4OX will be in Gitmo for the IARU-Championship July 8th to 15th. Before and after the contest they will be active on all modes and bands 6M to 160m. The contest call will be KG4OX. QSL via home calls but KG4AU via W4WX via bureau or with return postage. ----- N0JK

C6IOTA & C6AJR: Bimini Island, Bahamas; (FL07) July 23 to July 28, 1998 Bands: 6m to 40 m IOTA #: NA-048 Operators: W8GEX (Joe), WA8LOW (Ron) and N9NS (Mike)

FP, MIQUELON ISLAND: The Prairie DX Group (N9PD) is pleased to announce their DXpedition to Miquelon Island (NA-032) from August 26th to September 1st. Their callsign will be FP/N9PD, and they will be operating multi-band 10-80 meters (also maybe 6 meters), multi-mode (SSB, CW & RTTY) continuously during the DXpedition. QSL info is direct (SASEs or IRC appreciated) or via the bureau. Further information can be obtained at their Web page at the URL address: <http://www.prairiedx.com> Or you can send your comments via E-mail to Fred (KF9YL) at: efl@interaccess.com

8P (Barbados): K7BV: "July 8-14, 1998 I will be operating from 8P (Barbados) primarily on the CW HF bands. The callsign will be assigned when I arrive. I will also bring 6 meter equipment as well as an antenna donated by the C3I company. I will operate in CW "beacon" mode on 50.101MHz whenever I am in the shack which will be most of the time - night and day. Reception reports can be emailed to me via me via <ve9aa@nbn.net.nb.ca> C3I has been kind enough to allow me to donate the antenna to the local radio club upon my return to the USA. QSL via K7BV CBA Dennis Motschenbacher K7BV <k7bv@aol.com>

Also:
Mike VE9AA has agreed to be my 6 meter "pilot" for my 8P DXpedition."

CQ Contest

Remember: CQ WW VHF Contest, July 11, 1800Z to July 12, 2100Z. Internet 6m contest ends 3 hours later, 2400Z.
